**The Dolphin Guide to Los Angeles and Southern California**

The best backcountry skiing in the Eastern Sierra is centered on the town of Mammoth Lakes, and Dan and Nate have made sure that nothing is left out of the broad area covered in the book, extending from Tioga Pass in the north to Bishop Creek in the south. From the backyard runs on the Mammoth Crest to the roadside accessible Tioga Pass, and the epic wilderness peaks like Mt. Tom and Laurel Mountain, this guide serves as both the ultimate introductory resource and the experienced hard-man's hit list. The book is printed in color, 240 pages, and packed with useful information. It includes scores of annotated color topographic maps and hundreds of color photographs. The authors give a written description for each approach and descent along with useful statistics for gauging conditions and seriousness, including the slope, aspect, and angle, vertical gained and mileage of the approach, and a seriousness rating.

Peter Graham: Mountain Guide

Lists the best spots for camping, hiking, canoeing, fishing, skiing, swimming, nature study

The High Sierra
Ways to the sky charts the evolution of alpine climbing in the United States, Canada and Mexico, from the evidence of ancient native ascents to the latest cutting-edge climbs. Andy Selters highlights key personalities - from exploratory climbers like John Muir and Lt. August Kautz to technical maestros such as Mark Twight and Marko Prezelj - on the most demanding mountain routes. He then points readers to the mountains where they can experience firsthand many of these historically significant routes.

**AMC White Mountain Guide**

**High Sierra, Mountain Wonderland**

Writing with verve and clarity, Mary Hill tells the story of the magnificent Sierra Nevada—the longest, highest, and most spectacular mountain range in the contiguous United States. Hill takes us from the time before the land which would be California even existed, through the days of roaring volcanoes, violent earthquakes, and chilling ice sheets, to the more recent history of the Sierra's early explorers and the generations of adventuresome souls who followed. The author introduces the rocks of the Sierra Nevada, which tell the mountains' tale, and explains how nature's forces, such as volcanic eruptions, earthquakes, faulting, erosion, and glaciation formed the range's world-renowned scenery and mineral wealth, including gold. For thirty years, the first edition of Geology of the Sierra Nevada has been the definitive guide to the Sierra Nevada's geological history for nature lovers, travelers, hikers, campers, and armchair explorers. This new edition offers new chapters and sidebars and incorporates the concept of plate tectonics throughout the text. * Written in easy-to-understand language for a wide audience. * Gives detailed information on where to view outstanding Sierra Nevada geology in some of the world's most beloved natural treasures and national parks, including Yosemite. * Provides specific information on places to see glaciers and glacial deposits, caves, and exhibits of gold mines and mining equipment, many from Gold Rush times. * Superbly illustrated with 117 new color illustrations, 16 halftones, 39 line illustrations, and 12 maps, and also features an easy-to-use, interactive key for identifying rocks and a glossary of geological terms.

**American Book Publishing Record**

This new and thoroughly revised edition is the authoritative guide to the best rock climbing in the Sierra Nevada. In addition to detailed route descriptions, topos, and route ratings, the book offers a history of climbing in the region. A must-have for California climbers and for any climber traveling to the Sierra.
Adventure Guide to the Sierra Nevada

Your Guide to the National Parks of the West

People travel from all over the world to stand on the summit of Mt. Whitney, the highest point in the contiguous United States. Miles of rugged granitic terrain, blue-green lakes, snowfields and impressive knife-edge ridges are just some of the awesome vistas awaiting those who make it to the top. Author Peter Croft (The Good, The Great and The Awesome), winner of the American Alpine Club’s Underhill Award is considered one of the best alpine climbers in the world today. The Eastern Sierra resident has done numerous first free ascents and created the mountaineering sport of “traverses and link-ups“ where in one day he’ll ascend and traverse several summits. Croft’s climbing resume includes:

First free ascent of University Wall V 5.12, Squamish (1982); First free solo of the Rostrum V 5.11, Yosemite (1985); First traverse of the Waddington range (1985); First one-day link-up of the Nose of El Capitan and Half Dome, Yosemite (1986); First free solo of Astroman V 5.11 (1987); First free solo link-up of Astroman and the Rostrum (1987); First free ascent of the Shadow V 5.13, onsight of crux pitch (1988); First free ascent of Moonlight Buttress V 5.12d/13a (1991); First one-day link-up of the Nose and Salathe routes on El Capitan, Yosemite (1992); First solo and one-day Minaret Traverse, the Sierras (1992); First ascent of Sponsar Brakk via 8,000-ft. rock route VI 5.11, Pakistan (1998); First ascent of the Evolution Traverse, the Sierras (2000); First ascent of Airstream, High Sierra
